Dear Bryan,

On behalf of the Center for Eye Care and Surgery, I would like to say "Thank You" for the terrific job that you and your company did with streamlining our practice's communications. As with making any big decisions, we were nervous making the proposed changes. However you and your staff made us at easy with the transition and we were happy to see everything transitioned smoothly.

The new VOIP phone systems that was installed has been terrific and is now saving our practice a substantial amount of money each month. As you had outlined in your initial proposal, the system has quickly paid for itself with the money the technology saves us each month. Being able to communicate easily between our locations has been a great help to our practice as well.

As always, doing business with your company has been a pleasure and I would be happy to refer your services to anyone.

Sincerely,

S. Matamoros, M.D.
